Part 1:
Setting the Stage

What labels are used to describe leadership?

Leadership Traits

Part 2:
What is this course about?
Syllabus page 1

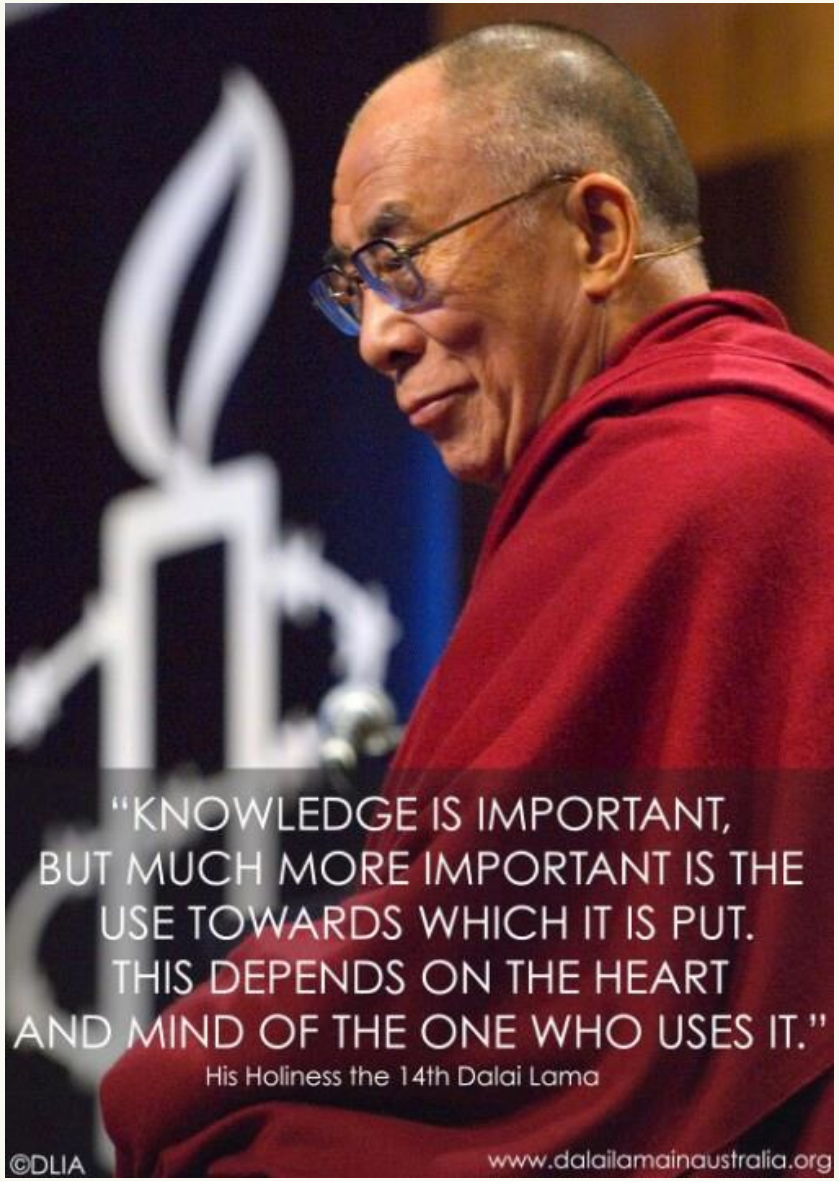
Course Description

- This course will focus on
  - basic concepts related to leadership and management in the provision of nursing care.
  - Students will examine management processes, leadership theory, and related competencies for individual clinical practice.
  - An emphasis will be placed on professionalism, professional identity, equity, inclusion in care, and emotional intelligence.
  - Internal environmental factors and external influences that impact nursing management will be analyzed.

OBJECTIVES:

- 1. Relate research to leadership in clinical nursing practice and management teams within healthcare settings.
- 2. Explain the impact of management processes on decision making and resource control in patient areas.
- 3. Analyze influences, both internal and external, to healthcare organizations that impact patient care delivery.
- 4. Describe scopes of practice for health care team roles providing patient care.
- 5. Discuss the influence of team and organizational culture in the provision of quality, safe, and collaborative interprofessional care.

Part 3:
The rest…course syllabus



"KNOWLEDGE IS IMPORTANT,
BUT MUCH MORE IMPORTANT IS THE
USE TOWARDS WHICH IT IS PUT.
THIS DEPENDS ON THE HEART
AND MIND OF THE ONE WHO USES IT."
His Holiness the 14th Dalai Lama
